Texans for Medical Freedom is a nonpartisan, member-driven organization dedicated to educating Texans on their constitutional rights to informed consent and vaccine freedom of choice, as well as advocating for greater patient autonomy and self-determination in health care. Our mission is to empower individuals in their personal, professional, and political activities to ensure that the foundational right of medical freedom is preserved for future generations.

Through educational resources, Texans for Medical Freedom leads the way in empowering our state to advocate and educate in an effective way that leads to long-standing reasonable reform.
